DIARY NOTES

ADD/A

17 December 1952

25X1A6a

Spent most of the day at the [REDACTED]

a. Reproduction equipment at the Center is expensive and is not being put to any useful purpose. I feel sure that there must be something at the [REDACTED] 25X1A6a plant which we could divert to [REDACTED] so that this equipment would be used gain-25X1A6a fully. I will explore this with [REDACTED] 25X1A9a

b. The emergency force lists at the Center are months out of date and DD/A offices are at least as delinquent as others. For instance, [REDACTED] 25X1A9a [REDACTED] are still listed as a part of the Personnel Office emergency force. I will 25X1A9a see that this is corrected. 25X1A

d. I reviewed the transportation situation at the Center and decided that adequate transportation is on hand. There is a total of twenty vehicles consisting of 5 station wagons, 3 sedans, 1 ambulance, and 11 miscellaneous utility trucks. 25X1A6a

e. The question was raised as to whether or not we should have cash on hand at [REDACTED] I undertook to explore it. (I have discussed the matter with Mr. Wolf who disapproves of the idea.) 25X1A6a

f. There was some question as to whether or not the 60 kw generator at 25X1A9a [REDACTED] would be adequate in case of actual occupancy by the emergency force. I have told [REDACTED] to explore with Jim Garrison the cost of a generator which would be adequate (perhaps 100 kw) and what disposition could be made of the 60 kw generator.

g. I declined to approve, without further exploration, a request for more IBM equipment which would increase our annual rental by \$5,280. We are already paying rental on IBM machines that are used in connection with the Vital Materials Repository which approximates \$15,000 a year. I will, however, explore this matter further upon receipt of a memorandum from [REDACTED] written in terms that a layman can understand. 25X1A9a
